Established in 1974 Renfrey Plant Hire Services is an award winning National Code Compliant hire provider of heavy earthmoving equipment and skilled operators. Renfrey specialise in bulk earthworks, load haul and major civil, infrastructure and mining projects. High quality plant is available for short or long term hire on either a 'dry' or a full service 'wet' basis including operators and fuel throughout Australia. Whether you require just one item or a fleet to do the whole project contact Renfrey Plant Hire Services.

SKILLED OPERATORS

A flexible team of professional, qualified operators with a wide range of experience are available for local, interstate or remote projects.

All operators hold white cards and tickets for plant operation
